

Log Lighter Valves

Arrowhead Brass Log Lighter Valves are made of heavy-duty brass with Teflon seat washers and is virtually maintenance free. Our valves come in straight (#258) or angle (#259) configurations and include a chrome plated flange and 2-1/4" loose key. Also available are the cast-iron log lighter bar and liquid propane adapter for use with propane installations. Arrowhead Brass Log Lighter Valves are UPC and IFGC compliant, and certified to standards ANSI Z21.15-2009/CSA 9.1-2009.

Models

258	Straight Log Lighter Valve with Chrome Escutcheon and Key
259	Angle Log Lighter Valve with Chrome Escutcheon and Key

Features and Specifications

- Heavy duty brass valve with Teflon seat washer, available in straight (#258) or angle (#259) pattern.
- Every valve is factory tested at 100PSI.
- Valves are rated at 154,000 BTU/hour at 1.0" water column.
- Intended for use with natural gas only. For Liquid Propane, use the 258-LPA Liquid Propane Adapter, sold separately.
- Chrome plated flange and 2-1/4" square-drive key (5/16") supplied with valves. 12" keys and polished brass flange and 2-1/4" keys are also available, see 2nd page for details
- IAPMO Certified.

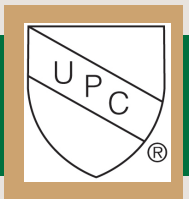

Liquid Propane Adapter

A propane adapter must be used when using Propane Gas. The Propane adapter should be installed outside the wall and near or directly to the Log Lighter Bar. The small iron pipe that is connected to the Propane Adapter should be installed facing in the direction of the Log Lighter Bar.

Cast Iron Log Lighter Bar

12" cast iron log lighter bar is designed with ledges that prevent falling ash from blocking orifices. Each bar has three 1/2 inch female iron pipe thread inlets, two inlets with countersunk plugs for adapting to a variety of installations. This bar is for natural gas only, LP adapter must be installed for liquid propane use.

Log Lighter Valves

Models and Parts

Model #	Description
258	Straight log lighter valve with key and flange
259	Angle log lighter valve with key and flange
258NC	Straight log lighter valve only
259NC	Angle log lighter valve only
258KIT	Straight log lighter valve with key, flange and log lighter bar
259KIT	Angle log lighter valve with key, flange and log lighter bar
258LP	Straight log lighter valve with key, flange and propane adapter
259LP	Angle log lighter valve with key, flange and propane adapter
258LLB	Cast iron log lighter bar
258-LPA	Liquid propane adapter

Part #	Description
PK1320	Replacement Key (#51) and Flange (#44) for Arrowhead Log Lighter Valves - Chrome Finish
PK1330	Replacement Key (#51PB) and Flange (#44PB) for Arrowhead Log Lighter Valves - Polished Brass Finish
PK1340	Replacement Key for Arrowhead Log Lighter Valves - Polished Brass Finish (#51PB)
PK1345	Replacement Key for Arrowhead Log Lighter Valves - Chrome Finish (#51)
52-12	12" Log Lighter Valve Key
