

# NEW PRODUCT!

## ARROWHEAD Stainless Steel Frost-Proof Wall Hydrants

**Arrowhead** stainless steel frost-proof wall hydrants are made from 316 marine and food-grade stainless steel, making them corrosion-resistant and perfect for areas with high humidity or extreme weather conditions. With their clean/modern look, the **Arrowhead** stainless steel frost-proof wall hydrants are lead-free and have the same dimensions, form, fit, and superior function as our brass lead-free lines.

- Made with 316 marine and food-grade stainless steel
- Lead-free
- Superior corrosion resistance – does not corrode or erode in humid or extreme weather environments. Reducing maintenance, replacement, and other upkeep costs. Perfect for coastal environments.
- Available in a variety of connections and sizes
- Arrowhead exclusive one-piece O-ring style bonnet and green oval handle
- Compatible with Arrowhead replacement part kits
- Same dimensions, form, fit, and function as our existing lead-free brass frost-proof wall hydrants
- Clean/modern-looking appearance
- **Arrowhead** 3-year limited warranty
